VULCAN ALBERTA

BIG BEN

BIG BEN is an alarm clock, you all know that. The price of BIG BEN has been raised to \$4.50 but at that he is still worth the money. If you have a BIG BEN take care of him. If he has been running over one year without cleaning and oiling, bring him in and have him treated right. BIG BENS are all alike. They live practically the same life. They tick happier when taken care of. \$1.00 will put one in good shape if it is in running order. It costs more to rouse them from the dead.

Keep BIG BEN in order, it will pay you. Let me have a look at him. He is a friend of mine and I know him clean through.

VULCAN LOCALS.

That bum tire, "let Bill fix it".

Mr. H. J. Maber, who left Vulcan on July 3rd last, for a trip across the water, has just returned.

See the new English Extra heavy service tubes. For sale by the Vulcan—Izera.

Donald McQueen, student of the Hilton Field in the Prebrytery of Castor, has been spending a few days with his relatives here, Mr. and Mrs. G. McQueen.

The Vulcan Rooming House has three or four particularly nice, comfortable rooms for rent for the winter at very reasonable prices.

Mr. "Pete" Beardley has sold his property wherein he has been running a pool room and barber shop to W. F. Bucher and intends to move over to States to some of the coast cities, possibly Seattle.

The Village Council wish to notify all autoists and drivers of vehicles to refrain hereafter from driving on the sidewalks of the streets, as the same is contrary to the prevailing bylaws and offenders are liable to arrest.

Capt. McCall, the Calgary airman, will give an exhibition of flying at High River on Saturday, the 27th inst, and will give all persons a four-minute trip through the air at the price of \$15.00 per. About fifteen High Riverites have already agreed to take a chance.

Mrs. A. P. Smith, of Stonehaven, Scotland, and Mr. D. H. Allen, of Winnipeg, were in Vulcan on Sunday last spending the day with their brother, W. D. Allen. They motored over from High River where they are visiting and will return to Vulcan to spend a few days with Mr. and Mrs. Allen.

Mr. A. J. Ober and Mr. E. R. Hardaker, the two young men who have taken over the "Community Theatre" are musicians of the first class, and they have already signified their intentions of joining the newly organized band which has elated the present members, who feel that their assistance and experience will do much towards making the same a completely equipped and successful organization. They expect to have one or two other high grade musicians join them here when Vulcan will again be on the map this Winter with a band and orchestra a credit and advertisement to the town.

NOTICE

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 17th of October, 1919 for the conveyance of His Majesty's Mails, on a proposed contract for four years, twice per week on the route Armada and Vulcan from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Vulcan, Armada and Reid Hill, and at the office of the Post Office Inspector, Post Office Inspector's Office, Calgary, 5 Sept., 1919.

D. A. BRUCE,
Post Office Inspector.

NOTICE

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 17th October, 1919, for the conveyance of His Majesty's Mails, on a proposed Contract for four years twice per week on the route Vulcan Rural Route No. 2 from the Postmaster General's pleasure.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Vulcan, Hearnleigh and Arrowwood and at the office of the Post Office Inspector, Post Office Inspector's Office, Calgary, 5th Sept., 1919.

D. A. Bruce,
Post Office Inspector.

VULCAN LOCALS.

If your house is for sale or to rent, list it with us for quick action. Hagerman & Co.

We lead, others follow. Call in and we will teach your dollars to have more cents. A. G. Spooners.

Mrs. P. W. Forster, of Lethbridge, sister of Mrs. R. L. Elves, has been spending a few days with Mr. and Mrs. R. L. Elves of Vulcan.

If you are looking for a good suit of clothes, we have it. No last year's eggs in this nest. We carry nothing but the best. A. G. Spooners.

Miss Mary Marcellus of Calgary is visiting her sister and brother, Mr. and Mrs. Howard Marcellus. She expects to be here for two weeks.

Mrs. W. E. Buchart and son Willie expect to sail for Canada the last of this month. They have been in London since May last.

The new Victory Loan is about to be launched and it behooves all to anticipate the same and personally prepare for our share in it.

Dr. C. T. Galbraith left on Monday for Seattle where he intends to continue his practice in the future. He will visit Vancouver and Victoria en route.

Mr. W. D. Allen, who has been laid up and suffering from an accident to his knee for the past two weeks, is around again, but on crutches, and hardly as yet able to attend to his duties.

Do you need money to finance next year's crop, or for present needs? We're placing a large number of loans of large and small amounts. For prompt action, see Hagerman & Co. We look after your interests.

NalSmith & Co. need room for their Fall stocks, and are putting on a BIG REDUCTION SALE to make room for the same. Don't fail to take advantage of the bargains there offered. Read their advertisement in this issue.

Mrs. Jack Marshall attended the Little Bow Constituency meeting of the Women's Institute on Friday last, and gives a very interesting review of the work done by the Reid Hill Women's Institute during the year.

The steel workers of the U. S. have gone on general strike and this industry, one of the largest in the world, is consequently at a standstill and Congress is inclined to view it "as the first skirmish in industrial warfare between capital and labor."

Mr. W. F. Rannels, of Sparks, Nevada, who formerly resided to the S. W. of Vulcan, is in town for a few days looking around and renewing acquaintances. He states that things in general are looking good around Reno and that business is exceptionally good with them in the garage business.

Attempted Suicide

Reid Hill Woman Tries to Take Her Life

Mrs. Lydia Diefenbaker, wife of Mr. U. M. Diefenbaker, of Reid Hill, in a moment of temporary unkindness, attempted to take her life by cutting her throat with a large knife at one of the outhouses of a neighbor last week. She was found in a pitiful condition and medical attendance was at once summoned and the wound, which was not found to be serious, dressed and the poor woman made as comfortable as possible. She was afterwards taken to Vulcan where she was adjudged of unsound mind and committed to the asylum at Ponoka, by J. A. Lindsay, J.P. where she will have good care and pleasant surroundings and where it is hoped by her many Reid Hill friends that she will recover her health and sound mind and be returned to her home in good physical condition before long. She was accompanied to Ponoka by Mrs. Clappison of Vulcan, acting as matron and everything was done to make her journey as comfortable as possible.

Come and look over our "Fit-Form" and "Society Brand" clothes. Nothing is too good for you. Sold only at the leading Men's Store, A. G. Spooners.

Passed Away

Jerman - Mc Cutcheon Succumbs to Typhoid Fever

On Sunday evening, Sept. 21st, at 6.30, Jermain McCutcheon, son of Mr. and Mrs. Robert McCutcheon of Havelock, Ont., died, aged 30 years, 2 months and 14 days.

The untimely end of this most likeable young man brings a sense of bereavement to the entire town and community, especially as everyone thought the crisis of his illness had been passed and that he was well along the road to a speedy recovery. The deceased, though a native of Ontario, was attracted to this part of the country several years ago, making his way to Vulcan the latter part of last February, via the Hull Lake district and Calgary, where he learned his trade and is well known. Since his arrival in the town he has been working in the McCutcheon Barber Shop, where everyone came to know and like him for his sincere and sunny disposition and his ability to cheer up the most desolate persons who came into the shop. Especially was this true in the case of many farmers, who several months back, had just cause for gloomy countenances. But no matter how deep the gloom that came into the shop it invariably went out considerably lightened, while the barber, as he was affectionately known by everyone, in a community where names amount to less than personality, was still with us. And after he was taken sick with typhoid fever, each morning found the majority of the business men dropping their work for a few minutes to hurry over to the barber shop and inquire of the proprietor, "How's 'the barber' this morning?" So when it was announced that, providing no complications set in, he would recover, everyone felt relieved, expecting to soon see him again at his accustomed place. Meanwhile, no one forgot him. The Gene Morton Hospital, where he was a patient can give eloquent testimony to the flowers and callers that came to the sick man. Indeed many of the visitors had to be denied the privilege of talking to him or seeing him as it was considered too much of a strain to his weakened condition. But a complication spinal meningitis, did set in, that proved fatal as he had not enough strength to combat its insidious attack. And the community is bereft of one of the most likeable young men it is given to know. After all, the highest tribute to a man, is the knowledge that all were his friends, none his enemies.

The deceased is survived by his father and mother, Mr. and Mrs. Robert McCutcheon, nee Miss Catherine Eyer, of Havelock, Ont., three brothers, Hugh, of Winnipeg, Alex, of Toronto, and Robbie, of Havelock, two sisters, Mrs. E. J. Leeson and Mrs. Maxwell Post, both of Havelock and two step-sisters, the Misses Buchanan of Havelock and Gull Lake respectively.

The body will be taken to Havelock by his father, his brother Hugh and his sister, Mrs. Maxwell Post, who were called to Vulcan two weeks ago by the deceased's illness, for interment.

COURT CLIPPINGS

On the 16th Sept. before Mr. J. A. Lindsay, J.P. in the Provincial Police Court, Hugh Baden appeared, charged with fraudulently taking a steer, the property of W. Robson, of Hearnleigh. Considerable evidence was submitted, both for the prosecution and the defense, as to the identity of the animal in question. The evidence was of such a nature that there was nothing for the magistrate to do but dismiss the case against the accused who retained possession of the steer. Mr. Stack appeared for the defence.

On Friday 18th Sept., Lydia Diefenbaker was brought before Mr. J. A. Lindsay, J.P. on a charge of being insane, and was committed to the asylum at Ponoka. The accused had attempted to commit suicide by cutting her throat with a knife.

We are receiving a number of enquiries for farms. If yours is on the market let us know about it. Hagerman & Co.

Water Works

Plans and Estimates by Calgary Firm

Mr. Hadden, of Hadden & Miles, Calgary, was in Vulcan about the 12th inst in pursuance of a request from the Village Council to come here and submit plans, specifications and estimates on the proposed water works mains contemplated for the Village. His proposition calls for 2720 feet of main pipe, of 6 and 4 inch diameter, with eight connecting hydrants, a concrete reservoir of 2800 gallons capacity with reinforced roof, a duplex pump with a capacity of 200 gallons per minute and all connections for the complete installation of the same, ready for use for the net sum of \$7568.20. Under this specification, pipes are to be laid along Vulcan St. from the alley at McPherson's store to the Oddfellows Hall corner, thence to Fred Elves' corner. On Atlantic Street from Rutton's corner to Mosher's Garage corner, and on Neptune St. from about opposite the Co-operative Co. to Charters corner, with hydrants at Reeves, Beardsleys, Co-operative, Theatre, Charters, Oddfellows, Elves, and Mosher's Garage corners.

Blue-prints showing plans and specifications and connections with the source of supply, together with the estimated capacity of the works were shown, and on these the Councillors will make application to the Underwriters' Association for approval, which if accepted, will then be submitted to the ratepayers for indorsement. If the plans are accepted, bids or tenders will be asked for, and the work hurried to completion. Mr. Paul Wittcock, under these specifications has agreed to furnish the power and water for the sum of \$300 per year.

It is figured that mains, with the added stretch of about 500 feet of 2½ inch hose will fully cover the so-called business district of Vulcan and some of the residential section bordering on the route, and will give the Village the fire protection sadly needed.

Changed Hands

Local Theatre Taken Over by New Men

Mr. A. J. Ober and Mr. E. R. Hardaker have taken over the Vulcan Opera House or "Community Theatre" as it is better known, having, on last Saturday completed arrangements and negotiations with Mr. G. Meyer, the former owner and manager, for the transfer, which takes affect at once. The new managers are already booking attractions for photo-plays which will be given in Vulcan at regular intervals. The transfer also takes in the complete circuit of houses in which Mr. Meyers has been operating, and where arrangements are now going on to have attractions continued at these points. Mr. Ober and Mr. Hardaker come to Vulcan, as two thoroughly experienced men in their line of work, having had years of experience in this field and in theatricals. They are not unknown to many Vulcanites, as they were members of the famous "Harmony Five" musical organization which was so often seen here and in other parts of the province during the last Winter, and who won an enviable reputation at dances for their "Jazz dance music." Vulcan is lucky to have their pleasure house in such good hands, which gives us an assurance of good attractions, backed by an endeavor to please all classes. We wish them success and believe the people of Vulcan and vicinity will be glad to support them in their venture, as we can assure them that these two young men will be valuable additions to the Village of Vulcan in more ways than one.

Mr. Donald Sinclair returned on Tuesday night from Calgary where he was attending a meeting of the Municipal Hall Board and states that the undertaking was a success in all respects so far, but that the work in collecting the premiums is yet to be done. Through the operations of this board and Act, \$650,000.00 have been saved the farmers in this district on premiums this year and further improvements and extensions are expected to be made for the coming year.

CUNNINGHAM

Best bread on earth, your money's worth, in graham, wheat or rye;
 And we can bake that wedding cake, and every brand of pie.
 Knowing how, you must allow, gives us the right to blow--
 Each loaf is right, in brown or white, here's where we knead the dough;
 Rolls, cookies, buns, and tarts by tons, cream-puffs and lady fingers
 Yellow mound of doughnuts round that give a taste that lingers.

"A Joan of Arc Machine"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities."—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb ditches and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords
 In Italy - 850 cars out of 1,000 were Fords
 In Egypt - 996 cars out of 1,000 were Fords
 In Mesopotamia - 999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record in every theatre of the war remains the same. It will be in the Ford you buy.

Ford Runabout \$600. Touring \$650. On Open models the Electric Starting and Lighting Equipment is \$100 extra.
 Coupe \$775. Sedan \$1,175 (closed model prices include Electric Starting and Lighting Equipment). Demonstrator runs, tire carrier, and non-skid tires on rear as optional equipment on closed cars only at \$20 extra. These prices are f.o.b. Ford, Ont., and do not include War Tax.
 Buy only Genuine Ford Parts. 700 Canadian Dealers and over 2,000 Service Garages supply them.

W. F. Jennejohn, Agent

Corpus Christi, Texas, suffered by severe hurricane storm on Sunday last, 200 dead 3,000 to 4,000 persons destitute and property damage of ten million dollars.

Get in on the good things offered by J. Nalmsmith & Co. at their Big Reduction Sale which starts on Friday next. Everything in the big stock at prices to move the goods quickly.

THE PROSPECT BILLY SUNDAY OFFERS CANADA

Billy Sunday is entitled to credit for his frankness. At Toronto on Sept. 2nd, he opened the campaign on behalf of the Ontario Referendum Committee, which is seeking to make total prohibition permanent in this province, and prefaced his remarks with these words: "I come from a land so dry that you have to prime a man before he can spit." And then, with characteristic verbiage he commenced to set the pace of the campaign which aims to perpetuate in Canada a similar state of bliss. It is possible that Billy Sunday was guilty of exaggeration; but he was unquestionably frank and truthful in indicating the goal at which prohibitionists on this continent aim. The only other remarkable feature of his address was his ejaculation of, "Say, Jesus," in his final prayer. It is quite evident that the uplifters of the United States have eliminated something else besides rum, namely reverence.

The question is whether Canadians desire to be made so dry that they will have to be primed to spit; and also whether in that event they will be happier and nobler. In the tributes to Canadian and British valor with which Billy Sunday interlarded his Toronto address he expressed great joy at the victory of Christianity over the Turks. While we do not dissent from him on this point, we think Billy's reference showed a lack of "esprit de corps;" for the Turks are the world's oldest and most consistent prohibitionists. Their defeat was a triumph of the alcohol-usury races. Logically Billy Sunday's sympathies should have been with the Turks.

THE BOSTON WALKOUT

The news from Boston following the strike of the policemen there has had an interest for us apart from the dispute which brought about the walk-out. It serves to remind us how dependent we still are upon those whose duty it is to enforce the law. Gangs of toughs and professional criminals lost no time in taking advantage of the situation. There were burglaries everywhere. Women were attacked. Boys started in on a regular campaign of window-breaking. Many restaurants and theatres closed rather than take chances. We boast of our civilization, but its maintainance is still wholly dependent on our having the means available to defend it. The usefulness of a police force or any army cannot be measured by the actual work which it does. This we realize when either is allowed to disband and we become defenceless.

In a Western court a certain man was defending himself in a suit for divorce. "She's unreasonable," he contended, adding, "why the other day she called me the laziest man in the world because I threw a kiss at her."

"Sargent was a great artist," said the teacher of the drawing class. "With a stroke he could change a smiling face into a sorrowful one." "That ain't nothin'," piped up Johnny. "Me mother does that to me lots of times."

Guest—Waiter, are you sure this is ox-tail soup?

Waiter—Yes, sir.

Guest—But I've found something that looks like a tooth in it.

Waiter—Well, I don't know, sir, but I reckon that ox must 'ave been biting 'is tail.

The curly-haired little sprite of the house came running to her father in the study, and, throwing her arms about his neck, whispered confidentially in his ear: Oh, papa, it's raining! Papa was writing on a subject that occupied his mind to the exclusion of matters aside, so he said, rather sharply, "Well, let it rain." "Yes, papa, I was going to," was her quick response.

An attorney was defending a man charged by his wife with desertion. For a time it looked as though it were a cinch for the prosecution, but at the psychological moment the attorney called the defendant to the stand. "Take off that bandage," he cried, and the man did it, exposing a black eye. "Your honor," said the attorney, "our defence is that this man is not a deserter. He is a refugee."

A citizen whose daughter is about to be married, and who has been trying to get a line on what the expense of the rather elaborate ceremony will be, approached a friend of his, seeking information. "Morris," he said, "your oldest daughter was married about five years ago, wasn't she? Would you mind telling me how much the wedding cost you?" "Not at all, Sam," was the answer. Altogether, about five thousand a year."

THE VULCAN ADVOCATE

IS LOOKING FOR YOUR JOB WORK

A most complete plant equipped with modern conveniences in Machinery, including Intertype machine and stocked with material for all kinds of Commercial printing.

No job is too large for us. None too small to receive our prompt and careful attention.

We solicit the business of outside towns and country stores. Your business cards, Letterheads, Envelopes, Statements, Counter Check Books; Looseleaf Ledger Supplies. Wedding and mourning Stationery, Pamphlets and Price Lists.

Let us have your ideas and requirements. We will satisfy your needs and please you.

Start your Fall Business with up-to-date business Stationery.

NEWS FROM BLACKIE

There will be a meeting of the
Council of Dutton Municipal District
held in Blackie on Sept. 30th. If you
have a complaint or suggestion to
make, be there in person.

The graders are at work in town-
ship 19, range 24 at present and they
are doing fine work.

Up till the first of the week there
was no evidence of frost in the Loma
district and potatoes and beans were
untouched.

In the Blackie district, while pota-
toes were slightly touched, grain
fields are still looking fine and with
a week more of good weather, we will
have a good oat crop report to make.
E. B. Snider's drilling outfit has
been moved from Aldersyde to
Blackie, to Richard Tiguers farm,
where he is drilling for water.

Some number two wheat has been
received the past week at our eleva-
tors.

Dave and Jerry Woodruff, stockmen
in the Glenwood-Vale district, brought
their bunch of stock to Dick Tiguers
farm where they will be fed this fall
and coming winter. Mr. Tiguers has
an immense crop of green feed.

Kirk Hatch of Granum is bringing
his stock to the Blackie district to
have them wintered.

P. T. Goulter has had erected on
his newly purchased property a ware-
house for his surplus stock.

Oscar Floberg expects to leave
Blackie about October 1st for Cali-
fornia.

Having purchased the Eastern
Trading Co. building now occupied by
Mr. Martin, I expect to move my
stock of hardware and furniture from
present store in the course of the next
week. Particulars later. P. T. Goul-
ter, hardware merchant.

Wm. Dickenson, who suffered a
loss from hail about six weeks ago,
threshed the second crop last week
and the yield was a surprise.

Messrs. Kennedy Bros., who pur-
chased the Henry Weaver had good
results this year. Recently they
threshed 50 acres of wheat that aver-
aged 25 bushels per acre.

Gratt Short completed threshing
his grain crop. He had a yield of 11
bushels of wheat to the acre. Not
bad for such a year.

Staff Sergeant R. Souter, brother-
in-law of Mr. Wm. McDonald of
Blackie district, was decorated by
H. R. H. the Prince of Wales during
his recent visit at Calgary. He got
the D. C. M. for conspicuous bravery
displayed on the field of action.
Staff Sergeant Souter was over three
years in France and was wounded in
action.

Rev. and Mrs. Coates returned from
a delightful vacation trip to Bitter
Lake. They speak highly of that dis-
trict and conditions are very good
there.

Mr. O. W. Bowls was informed on
Monday morning that Captain McCall,
who is billed to fly at High River on
Saturday, Sept. 27, would spend Mon-
day, Sept. 29 at Blackie and give
flights at \$15 per flight. Those de-
siring to go up in the air would confer
a favor by so intimating to Mr. Bowl-
us, who will book them a passage.

A REVIVAL OF PIETY

Coming from the Wall Street
Journal of New York, the following
sentiment is to be appreciated.

"What America needs more than
Railway extension and western irri-
gation, lower tariff and bigger wheat
crops, merchant marine and a new
navy, is a revival of piety—the kind
mother and father used to have—
piety that counted it good business to
stop for daily prayer before break-
fast, right in the middle of the har-
vest; that quit field work half an hour
earlier on Thursday night so as to get
the chores done and go to prayer
meeting. That is what we need to
clean this country of filth and graft,
of greed petty and big, of worship of
fine houses, of big lands and high of-
fices and grand social functions.
What is this thing we are worshipping
but a vain repetition of what de-
cayed nations fell down and worshipped
just before their lights went out."

The Wall Street Journal is again
right when it says there is today a
spirit of "worship of fine houses, big
lands, and high offices and grand so-
cial functions." Whatever the war
has slain it has not done away with
fashion and frivolity. People are not
only mortgaging their homes to keep
up with an artificial social life, but
many are mortgaging their very
souls. The more formal the social
function the more we are afraid we
are to bring any religion into it.

"What a God-send it is to have an
institution like the general hospital
in High River. The present staff is
not only thoroughly efficient, but they
are also kindly and considerate to the
patients and I have nothing but the
highest praise to utter in their be-
half."

DR. STANLEY CANED

About ten o'clock on Monday eve-
ning the Veterans' dance was stopped
for a time to permit Mayor Williams,
on behalf of the citizens of the town
of High River, to present Dr. Stanley
with a gold-headed cane and a cut
glass water set.

The Mayor in a very few choice
words expressed the regret of the citi-
zens of High River at losing a man of
Dr. Stanley's well-known sterling
qualities from amongst us. Although
we did not always agree on public
questions he had found the Doctor a
big enough man to disagree with and
still have the highest regard for him.
We could ill afford to lose such men.
What we needed was more men of his
ability as leaders amongst us and he
hoped in the new field to which the
Doctor had gone that he would still
continue to serve the people in his
public capacity and reach higher hon-
ors which he so much deserved. He
hoped he would accept those pres-
ents as a token of the esteem in
which he was held by the citizens, both
those who did not agree with him on
political questions as well as those
who did. And he hoped the Doctor
would not lose interest in us altogeth-
er now that he was removed from
amongst us.

The Doctor in accepting the token of
esteem from the citizens of High River
feelingly thanked the Mayor and
friends for their kind wishes in re-
gard to himself and family. He said
he would not disguise the fact that
he appreciated our esteem and hoped
that he would always be worthy of it.
He spoke of coming to High River
as a young man and whatever suc-
cess he may have made it had been
in High River, and he would always
look upon this as home. In his work
he had always tried to play the game
fairly. He had made mistakes, but he
had always been conscientious in try-
ing to do what he believed was the
right thing; and he counted amongst
his best friends some who had op-
posed him politically. He did not ex-
pect everyone to believe and see things
as he saw them or to agree with him
in all he did, but he could appreciate
an honest opponent and he expected
them to do the same. After again
thanking all for their kindness ex-
tended he and Mayor Williams retired
and the dance was resumed.

ALBERTA TEACHERS' ALLIANCE

The Executive of the Provincial
Teachers' Alliance met in Calgary on
Saturday last. A large increase in
membership is announced and the Ex-
ecutive feels that it will only be a
matter of time before the Alliance
will include every teacher in the Pro-
vince. The Alliance is now in a po-
sition to urge upon all School Boards
the adoption of a new self-renewing
contract which provides for the teach-
er more security of tenure of his po-
sition by making it impossible to dis-
miss him except for proved ineffici-
ency or misconduct, or to transfer
him without his consent.

The new contract further embodies
a Provincial wage schedule, the main
feature of which is a minimum wage
for all public school teachers of \$1,200
per annum and liberal increments for
experience and efficiency. This mini-
mum is \$360 in advance of the present
statutory minimum and has been
adopted with a view to bettering,
more especially the status of the
teacher in rural schools.

The work of the organization has
grown to such proportions that the
employment of a permanent Provin-
cial organizer has been decided upon.
This organizer will be highly paid and
will give his entire time to the or-
ganizing of local Alliances through-
out the Province.

District Secretaries were also ap-
pointed to relieve the Provincial Sec-
retary and to ensure a more intensive
organization in every section of the
Province.

H. C. Newland of Edmonton was
authorized to be present at the next
session of the Provincial Legislature
and represent the Alliance when al-
terations in the School Ordinance are
under consideration by the Law Com-
mittee.

CARSLAND BRIDGE

The long-expected Carsland bridge
is now an assured fact. Mr. Geo.
Hoadley, M.L.A., has informed The
Times that the orders for the steel
and timber for the structure have been
placed and they will be delivered
promptly. The abutments will be
proceeded with at once so as to be
completed before the heavy frost this
fall. The pier will be built as soon as
the ice on the river is sufficiently
strong to permit the work to advance.
The bridge will be ready for traffic
in the spring.

Four thousand well-to-do English
women are coming to America shortly
to reside.

WATER WORKS

There is at present substantial
evidence, gathered from the present
activity displayed by our village fath-
ers, that Vulcan will soon be supplied
with fire protection. Plans are being
laid and figures obtained which when
formulated and receiving the in-
dorsement of the ratepayers, will ac-
complish the much desired result and
will place the business district of the
village in a more protected position
than heretofore.

Aside from the safety afforded, it
has been suggested that the installa-
tion of such a plant proposed, will be
a direct asset and real saving to the
ratepayers, as the difference in insur-
ance rates between the present ex-
cessive rates imposed and the new
rates resulting from the better pro-
tection afforded, will more than care
for the obligation attached to the cost
of the plant. In fact, if present fig-
ures, as anticipated are realized, the
difference will amount to about
three times the carrying cost of the
plant, so that the savings resulting
would soon pay for the plant without
any extra burdens, in the way of tax-
ation on the ratepayers. The finan-
cial condition of the village is such,
at the present time to warrant the
outlay without seriously crippling its
borrowing capacity, and we hope that
the movement now started will be
pushed to a favorable conclusion and
that Vulcan may soon have a water
works that will afford the protection
needed. We have so far been re-
markably lucky and free from any
serious conflagrations which would
tend to make us realize the real im-
portance of water protection, and it is
consequently very important that we
should anticipate the danger and pro-
vide for protection before any serious
conflagrations occur. Let the nego-
tiations go on and then let the rate-
payers promptly ratify the measure
and get the work started. Vulcan
needs this protection.

OF GENERAL INTEREST

Sir William McKenzie and a num-
ber of other Toronto citizens have been
summoned to appear before the
Courts and explain why they have not
paid their income tax.

The Board of Commerce will probe
into restaurant prices as well as other
lines of business.

A part of the American fleet took
part in the welcome at Vancouver of
the Prince of Wales on Sunday last.

It is reported that the C.P.R. may
buy part of the McArthur lines of
railway in the Grande-Prairie-Peace
River Crossing section. It would be a
good thing for that country if they
did.

Grain elevators in Nebraska are
filled to capacity and meanwhile much
grain is in danger of rotting on the
ground. There is a shortage of rail-
road cars and elevator space.

It is said that secret mining has
been carried on for over 100 years at
Little Whale River by the Hudson
Bay Company and the ore is galena
silver. This is supposed to be very
efficacious in allaying diseases.

Lord Jellicoe will visit Canada in
November and will travel from coast
to coast.

Dr. Clark, M.P. of Red Deer, says
that the money spent on Commerce
Board is sheer waste. Let us hope
the doctor is not correct in his sur-
mise.

Maurice J. King who was a carter
in High River years ago is sought
eagerly by his lawyer on a very im-
portant matter. If you know of his
whereabouts kindly communicate with
this office.

Harry Pikovic, arrested recently in
Vanvouver on a charge of implication
in the robbery of the Merchants'
Bank, Okotoks in 1916 is able to
prove an alibi. The sum of \$5,000 in
cash and \$90,000 in securities were
removed.

The South African Parliament voted
an annuity of \$1,200 to the widow of
the late Premier Botha in considera-
tion of his great service to South
Africa.

THE THINGS THEY SAY

"Does any foreigner taking out na-
turalization papers really and sincere-
ly adopt that country as his own? Or
does he not always remain at heart
loyal to the country of his birth?
Personally I think he does and this is
one reason why it is dangerous to
elect to high positions men who are
not nation born."

"In connection with a memorial for
the fallen soldiers at High River, I
would like to suggest a granite stone
on the C.P.R. lawn. Let every person
contribute a portion and the balance
will be made up by a few of our
wealthy men."

"The United States was the wealth-
iest nation in national capital at the
beginning of the war and it possessed
only \$2,100 per head of population,
with an income of only \$360 per head.
Britain stood next with about \$1,600
of national capital per head, with an
income of \$250 per head. Canada
had \$1,500 of national capital per
head of population with an income of
\$200 per head." These figures indicate
that no nation has any vast store of
wealth to be drawn upon as so many
people seem to imagine, and it is time
a halt was called on reckless expendi-
ture of national wealth.

"We stand today sadly in need of a
revival of domestic piety. The lack
of religious teaching in multitudes of
homes in this community is appalling.
It would seem that while most of our
homes are moral, they are God-less.
Many of our children know nothing of
the Bible. I doubt if they can de-
scribe who Moses was, and in many
instances they do not know the Lord's
Prayer. A terrible statement to make
but nevertheless true. What we re-
quire here is a revival of piety."

"It is a coincidence that, simultane-
ous with the appearance of the Prince
of Wales to Canada, a Prince of the
Catholic Church, Cardinal Mercier,
who as courageously defied German
Kultur during the German occupation
of Belgium, visited New York and was
greeted with a cordiality that equalled
the reception of the Prince of
Wales in Canada. Cardinal Mercier
is a wonderful man and it will be in-
teresting to read any statement he
may make during his visit to Amer-
ica."

"The Great War Veterans, in de-
manding a gratuity, should insist that
the money be secured, not through a
general tax, but by a special levy on
all those who made excessive profits
during the period of the war. There
are men in our own locality here who
made small fortunes out of their
farms and business houses. The Gov-
ernment has the particulars of the
profiteers in the Income Tax Returns
and there should be no difficulty in
obtaining half a billion dollars from
this source. I understand the Flaville
interests made over \$300,000,000 pro-
fits during the war."

"I threshed over 300 bushels of seed
oats from a 20 acre field of oats about
a month ago, and a second crop is on
the way which will give me at the
very least two tons to the acre of
good oat sheaves." So said a farmer
to us on Saturday last.

Bob Dunbar, the great curler of St.
Paul, Minn., has accepted a position
in Winnipeg where he will live in
future.

"I would like to see a dramatic club
formed in High River at once, so that
good plays could be put on during the
coming Winter. Will not some of our
theatrically inclined take the lead.
All we require is a leader."

"I have always felt that I could
be nothing but a Yankee, but after
seeing and meeting the heir to the
British throne. I have my doubts.
That fine young chap with the blue
eyes and ever present smile has al-
most made me an Imperialist."

"The regulations of the post office
department forbid mail clerks carry-
ing arms of any kind, so the only
weapons the clerks had in the recent
robbery by bandits were pocket
knives. Could anything be more ab-
surd? Railway mail clerks should
carry firearms and will from now on."

OF GENERAL INTEREST

Arthur J. Balfour, British Foreign
Secretary, will be created an Earl in
recognition of his war services.

The Bishop of Calgary has appoint-
ed the Rev. Canon Hayes archdeacon
for organization throughout the dioc-
ese. Canon Hayes, in accepting this
new office will resign that of Canon.
Monday, October 13th, has been
proclaimed as our National Thanks-
giving Day this year. All stores will
be closed that day.

WHAT ANDREW CARNEGIE LEFT

The will of Andrew Carnegie disposes of an estate valued at \$25,000,000 to \$30,000,000. The residuary estate of about \$20,000,000 goes to the Carnegie Corporation. Direct public bequests of \$960,000 are left to institutions, and legacies of \$268,000 a year go to friends, associates, relatives and persons of public prominence.

Mrs. Carnegie receives all her husband's real estate with his personal effects of every kind, believed to be worth between \$5,000,000 and \$10,000,000. In explaining why he made no further provision for his wife, Mrs. Louise Whitfield Carnegie, and no bequest to his daughter, Margaret, now Mrs. Roswell Miller, the testator said: "Having years ago made provision for my wife beyond her desires, and being unable to judge at present what provision for our daughter will best promote her happiness, I leave to her mother the duty of providing for her as her mother deems best. A mother's love will be the best guide."

The public bequests were: \$30,000 to Hampden Institute, \$200,000 to each Pittsburg University and the relief fund of the Authors Club of New York; \$100,000 to Stevens Institute, "to improve my original gift"; \$100,000 to St. Andrew's Society, in addition to a lifetime gift of \$100,000, and \$60,000 to Cooper Union.

Annuities to well-known persons include the following: William H. Taft, \$10,000; Hon. John Burns, \$5,000; David Lloyd George, \$10,000; Mrs. Grever Cleveland, now Mrs. Thomas J. Preston, \$5,000; Mrs. Theodore Roosevelt, \$5,000; John Morley, life-long friend, \$10,000; Walter Damrosch, \$3,000; Thomas Burt and John Wilson, members of Parliament and life-long friends, \$5,000.

Men and women associated in the organizations established by Mr. Carnegie for the distribution of his wealth for the benefit of mankind also received legacies. They include: Robert A. Franks, financial secretary and president of the Home Trust Company, founded by Mr. Carnegie for the conduct of his private business, as named by him as executor under his will, \$20,000; Dr. Henry S. Pritchitt, president of the Carnegie Foundation for the Advancement of Teaching, \$10,000; James Bertram, Private Secretary, \$10,000; President Robert S. Woodward of the Carnegie Institute at Washington, \$10,000. John A. Poynton, Secretary, receives \$5,000 a year.

Mr. Carnegie gave \$10,000 a year to each of his married nephews and nieces, and \$5,000 to each nephew.

PRACTICAL PATRIOTISM

The action of Bow Valley Municipal District, in refunding taxes amounting to over \$122 to the Haggood boys, who recently returned from overseas, is a commendable example of practical patriotism which might be emulated by some public bodies close to home. The farmer does not usually get up on his hind legs and shout and wave the flag, but he does know how to do the right thing by the boys when they come back. An example of practical patriotism, as exhibited by M. D. Bow Valley is worth a ton of talk.

—Strathmore Standard.

One of the most vexatious problems we of this town and district have to contend with today is the person or persons who persist in listening to conversations or messages on the telephones, which are not meant, for their ears, and are of none of their concern. We were taught that an eavesdropper was a contemptible thing, but have concluded that the above species of humanity have an eavesdropper outclassed by miles, as he or she doesn't even take the sporting chance of being caught.

General Pershing is credited with the following: "I was standing near headquarters tent when I noticed that a certain captain who was standing near by had fallen into the habit, every time a private saluted him, or answering the salute with military precision, but following it up with the words, 'The same to you.' Finally I called him over and asked, 'Captain, why do you say "the same to you", every time you return the salute of a private?' The captain grinned. 'Its this way, general; I was a private once, myself, and I know what they say under their breath every time they salute an officer.'"

On Friday afternoon, Sept. 12, Mr. R. Robbie suffered the loss by fire of his barn and a number of stacks of feed which were located near the same. The cause of the fire is unknown but it is thought to have occurred by combustion from the green feed stored in the loft of the barn.

U. S. PRESIDENT AS TEACHER OF ECONOMICS

Woodrow Wilson may not be popular among the practical politicians of the United States, but he is obviously a great power among the American people. Though his ambition seems to have been to be regarded as the Lincoln of the Great War, he shines much more effulgently as a domestic economist, a field in which Lincoln's abilities were never tested. Between 1912 and 1914 he scored some extraordinary triumphs over the selfish elements among the vested and financial interests; and in his handling of the economic situation on this continent at the present time he is showing remarkable potency. He seems to be getting real results from his efforts to hammer down prices; and, more important still, he has in some degree changed the attitude of American labor in general, by his clear exposition of the fact that the high cost of living can never be countered by raising wages. Many editors and publicists have been telling the public the same thing for months but they never got anywhere until Woodrow Wilson took the subject in hand.

WHISKERS

Though the Prince of Wales is 25 and his grandfather was only 19 when he visited Canada, the latter looks very much older in his photographs than our present visitor. The explanation lies in the fact that it was the style to wear whiskers fifty years ago, and that even youths of 19 did their best to accommodate themselves to it. Will whiskers become popular again? According to a London paper this is quite a possibility. Many officers, it tells us, are wearing them because their right arms have been stiffened or impaired by wounds, and they find shaving a difficult operation, and from them the habit is spreading.

THE PRINCE AT THE BAR-U

Immediately after the reception in High River, the prince entered Mr. Lane's automobile and seated himself with Mr. Lane in the back seat, while Lord Hamilton, the prince's personal companion sat in front with George Baillie, Mr. Lane's chauffeur. Three other cars followed with other members of the royal staff and all of them carried guns and fishing tackle. Upon arrival at the ranch about 6 o'clock, a brief visit was made by the prince to the stables of Mr. Lane where he inspected some of the pure bred Percheron horses that are sold to be exported to England about the first of October. The prince was keenly interested in the horses and interrogated Mr. Lane about the Percheron breed. After viewing the horses he got his gun and Prof. Carlyle walked with him to duck ponds on the ranch where the prince had the pleasure of potting a few, after which the shooting party returned to home where dinner was awaiting them. The residence was decorated appropriately and floating in the breeze from the flag pole was the royal standard. Mrs. George Lane and her daughter, Miss Elsie were hostesses.

After dinner the party spent the evening in social intercourse and card playing, the prince retiring early.

In the following morning the prince left the house unnoticed, and enjoyed a before breakfast run of about six miles. After breakfast he and his party got their mounts and rode to the foothills, eight or ten miles, and assisted in rounding up cattle and cutting-out calves for branding. The process of "rounding up" and branding the cattle interested the Prince immensely and in rounding up the cattle he displayed horsemanship that was delightful to see. During the branding of cattle, a heavy rainfall took place and the heir-apparent was invited to return by motor to the ranch house. This he refused as he preferred to ride along with Mr. Carlyle. Meanwhile he was drenched to the skin but he enjoyed the morning's programme immensely.

After lunch the Prince observed that there were several returned soldiers among the cowboys, and he chatted pleasantly with them about their experiences overseas and finally permitted himself to be snapped surrounded by the cowboys. Then he went out to shoot prairie chicken and he tramped aimlessly along admiring to the fullest the magnificent scenery that can only be seen at the Bar-U Ranch. What interested him greatly was the beaver dams, and he insisted on Mr. Carlyle giving him a thorough and complete history of the beaver, and its habits and peculiarities.

Notes at the Bar-U

The movie man is a determined chap on all occasions, but he met his match in the Prince. One of them went out to the Bar-U and attempted to get the Prince, but the Prince saw him first. He went out to the Bar-U to get away from the camera and such things and he had the movie man removed at once. Thus the world will miss many interesting snap-shots of the Prince while at the Bar-U.

Watching Alex. Fleming brand and mark the calves, the Prince remarked to Mr. Carlyle that he was "darned glad he wasn't a calf."

Speaking of marksmanship, Lord Claude Hamilton and Colonel Henderson shot gophers through the head with a rifle at a distance of over 75 yards.

The Prince is also a crack shot but he has practically lost the use of his right hand which handicaps him in his shooting. This exasperates him.

As the Prince was passing under the arch leading to his train, he was heard to remark that he was coming back to High River. He thanked the people of High River for what they had done for him and he enjoyed it so much that he wanted to come back.

In motoring to the Bar-U Ranch with Mr. George Lane, the Prince of Wales was attracted with the appropriate decorations at Mr. Harry Baines' store on the Bar-U trail and seeing Mr. Baines, Mr. Weinard and Mr. S. R. Baker standing at the store, he asked to meet the gentlemen. The car stopped and the above named went to the car and were presented to the Prince who chatted pleasantly with them for a short time. At the Baines store one has a splendid view of valleys, foothills and mountains, and we are told the Prince admired the scenery from this point very much.

Save dollars by attending Nal Smith's Big Reduction Sale which starts on Friday the 26th. Nothing reserved. Everything marked to sell quickly to make room. A Genuine Clearing Sale at prices that talk.

The best line of Men's Wear in Southern Alberta sold at A. G. Spooners.

INSTITUTE

Annual Conference of Little Bow Constituency

The Annual Conference of all Institutes in the Little Bow Constituency was held in Carmangay on Friday, September 19th. There are seven branches in this constituency, five of them sending delegates. Carmangay, Barons, Champion, Golden Rule, Reid Hill. Mrs. Gordon McKay of Reid Hill being the convener for this constituency acted as chairman. Mrs. Jack Marshall was elected secretary.

Miss M. Isaac, Superintendent of Alberta Institutes, gave a splendid explanation of Constituency Organization and Mrs. Rogers (of Saskatchewan, gave an address on work of Institutes throughout the Province) Provincial secretary. At the close of the meeting the Carmangay Institute served a very dainty luncheon.

Those who attended from Reid Hill were Mrs. G. McKay, president; Mrs. Jack Marshall, delegate; Mrs. Jack McKay, Mrs. James Marshall, Mrs. Guy Walker and Mrs. Ed. Arney.

Mrs. Rogers will be here in November and it is hoped that the Vulcan branch will reorganize at that time.

BAD ACCIDENT

Thomas Maki is the victim of a bad accident which happened Tuesday evening on the road in the vicinity of Brant. Maki, who is a farmer, has been in the employ of Mr. Jay Green, and recently has been with a threshing crew. The threshing operations were suspended for a day or two, and in the off time two of the workmen, Maki and George James saddled up a couple of horses and started on a ride. One of the horses was snubbed to the saddle of the other. They went along at a fair gait and all right until the animals stumbled and fell. The horses running loose and without riders attracted the attention of the other men of the crew and led to the discovery of the two men lying on the road, and when found they were unconscious. James was but slightly injured, while Maki suffered to the extent of a broken back, dislocated shoulder, and other injuries. The latter was brought to the hospital at High River and later taken to Calgary. One of the horses figuring in this unfortunate event is known as "High Roller," and was one of the horses ridden in the finals of the bucking contest at the High River celebration on Peace Day. It is a remarkable fact that the injured man was riding a very gentle horse.

U. F. A. MEETING

The meeting of the U.F.A. held on Saturday last for the purpose of considering the organization of a local co-operative credit society at this point, was not largely attended but all those present were pleased at the proposition as outlined by Mr. W. M. Sellar, Supervisor of Co-operative Credits, who addressed the meeting. A few new names were added to the list of subscribers and enough have signed to permit of an application being made for incorporation, but double the number is wanted and is expected to be available. Full particulars regarding the same may be had at the office of the Vulcan Co-operative Co. here.

PUBLIC NOTICE

Is hereby given that there has been introduced in the Council of the Municipal District of Marquis No. 157 a By-law, as published elsewhere in this paper, and a copy of the same may be seen in each of the following places:

Ottawa, August 26, 1919. 7-4c

RATEPAYERS NOTICE

The Municipal District of Marquis
No. 157By-Law No. 15 for the restraining of animals
running at large

A by-law of the Municipal District of Marquis, No. 157, for restraining animals at large.

(1). In this by-law unless the context otherwise requires the term animal means horses, mules, cattle or sheep.

(2). No horses, cattle, mules or sheep, the property of any person non-resident within the said Municipal District, shall at any time be at large in any part of the Municipal District.

(3). An animal at large shall be deemed to be any animal not under direct control of the owner or someone acting under his authority, or not confined within any building or lawful fence.

(4). Any animal at large contrary to the provisions of this by-law may be impounded in the manner herein provided for.

(5). Pounds shall be established as follows:—

1. POUNDKEEPER EDWARD SYNGE, SITUATED ON THE S.W. 31-17-21 4.
2. POUNDKEEPER J. W. ADAM, SITUATED S.E. 1-S 24-17-22-4
3. POUNDKEEPER ROY ALLEN, SITUATED ON THE N.E. 1-4 13-19-22-4.

(6). The following shall be deemed a legal fence within the meaning of this by-law.

CEDAR POSTS TWO RODS APART WITH DROPPER BETWEEN OR WILLOW POSTS ONE ROD APART.

FENCE TO CONSIST OF THREE BARBED WIRES AND SHALL BE SPACED AS FOLLOWS:—

FIRST WIRE—FROM THE BOTTOM SHALL NOT BE MORE THAN EIGHTEEN (18) INCHES FROM THE GROUND.

SECOND WIRE—FROM THE BOTTOM SHALL NOT BE MORE THAN THIRTY-TWO (32) INCHES FROM THE GROUND.

THIRD WIRE—FROM THE BOTTOM SHALL NOT BE MORE THAN FORTY-SIX (46) INCHES FROM THE GROUND.

(7). The provisions of Section 208 to 215 inclusive of the Municipal Districts Act, shall be deemed to be incorporated in and form a part of this by-law.

(8). The provisions of the Herd Ordinance, and the Pound District Ordinance, shall cease to be operative within the said Municipal District on the coming into force of this by-law.

Any person who suffers or permits any animal, which he is entitled to possession of, to be at large within the said Municipal District, contrary to the provisions hereof, shall be guilty of breach of this by-law, and shall, under summary conviction under Part XV of the Criminal Code, forfeit and pay as a penalty an amount not exceeding one hundred dollars and costs, and in default of payment forthwith after conviction, shall be liable to punishment by imprisonment with or without hard labor for a period not exceeding thirty days unless such fine and costs, including the costs of committal, are sooner paid.
